

POD® HD Desktop Multi-Effect

Record with Revolutionary HD Modeling

- New HD amp models and M-class effects
- Desktop form factor
- Essential project studio I/O

POD® HD desktop multi-effect represents a giant leap forward for home recording. It offers 22 stunning HD amp models, over 100 modern and vintage effects and a digital and analog I/O essential for any project studio. Connect your guitar to the 1/4-inch input and a mic to the XLR input (with dedicated trim knob). Send your signal out via USB, in 24-bit via S/PDIF, or use its 1/4-inch stereo outs to connect to any DAW or analog multi-track recorder.

Revolutionary HD models capture 10 times more amplifier information than the previous generation. POD HD offers HD tones based on* classic Fender®, Vox® and Marshall® amps, boutique essentials from Bogner®, Dr. Z® and Divided by 13, and many other modern and vintage favorites. Mix and match amps, effects, cabs, mics and more to get the right tone every time.

An easy-to-read display and real, hands-on knobs make for easy integration into any project studio. The big, clear LCD lets you view and adjust your entire signal chain at a glance – no digging needed. Edit all model parameters directly from the home page. Its small footprint fits easily onto any desktop.
